Dear Jennings County School Parents:

RE: Returning Hotspots and Receiving Datacasting Equipment

Hotspots

Students attending traditional school will need to return their hotspot and their charging cable by Monday, May 17th. Some schools have already started to collect these devices. Please place the items in a plastic sandwich or freezer bag along with the charger. Students can return their equipment at the following locations:

- Elementary School Students: Please return hotspots to the homeroom teacher
- Middle School Students: Please return hotspots to the Library tech area.
- High School Students: Please return hotspots to the JCHS tech office

Current Online Students will keep their hotspots and turn those in during text-book check-in. **JCHS Summer School Students** will need to keep hotspots until the end of summer school. This is JCHS only. All other schools are due back May 17.

All hotspots that are not returned could be charged \$85.00 for the device, and \$15.00 for the cable.

Datacasting Equipment:

Please do not return any datacasting equipment for the summer, which is the window unit and/or rooftop antenna. We are going to continue with our datacasting installs throughout the summer. If you are returning a hotspot, and need datacasting equipment, please call the tech hotline 812-352-1921 and leave a message stating that you need the equipment, and someone will call you back to make arrangements. Please leave your name, student names, school, and the best time to reach you. We could be sending more Datacasting equipment out if it arrives before the end of the school year. If not, we will send out another notification for pick-up dates in June.

Sincerely,

Josh Taylor
Director of IT
